Pinky Dalal
Founder | Chairperson

From Chairperson's Desk

JBCN International School is the realisation of a vision we have nurtured through 3 decades of educational endeavour - a vision to create a school community where every single individual, whether student or educator, is a lifelong learner. Learning experiences at JBCN International School will not be limited to schooling but will serve as an important stepping stone in a lifelong journey of growth and development.

Our concept of EduCreative experiences takes shape through the Mind Body Soul programme, which focuses on the all-round development of our learners through academic excellence, dynamic and challenging physical activities, enriching creative experiences and value education. We intend to instil in all our learners a strong value and belief system that inspires them to contribute to society. We believe that a strong moral and ethical foundation creates good citizens who, albeit in a small way, make the world a better place by contributing to the community, country and the world.

My team and I pledge our commitment to your child and you and assure you that your association with JBCN International School will be a rewarding EduCreative experience.

Welcome to JBCN International...a school with a difference.

Debika Chatterji
Director Principal

Director Principal's Message

Many future histories will be written by the children and young adults growing up in our institutions today. Keeping this lofty overarching goal in mind, we focus on our daily routine, ensuring that every interaction and experience is a milestone in their lifetime of learning.

The platforms for self-expression, mindful debates, reflective introspection and unrelenting academic tenacity are the threads of everyday practices that are woven into our dream for a sustainable world. We aim as a team to motivate our wards so that they have fortitude and resilience to persevere despite setbacks. Education systems in the changing scenario need a mind-set intervention so that we have a more pragmatic approach.

Our teachers and mentors understand the value of critical evaluation, analysis and perception, underlining the importance of deep, committed, self-regulated education versus mere academics. Meaningful conversations about learning facilitate our ultimate aim wherein the process of learning becomes as important as the final product.

We believe that "The personal journey of every individual shapes the collective future of our society".

Vision Statement

Our vision is to create tomorrow's leaders who strive for academic excellence by acquiring knowledge through EduCreative experiences, and in the process, evolve into lifelong learners with a sense of conviction and commitment. We aspire to create responsible citizens who have an understanding of global issues and work for the betterment of the world community.

Mission Statement

The mission of the school is to nurture inquiring young minds through EduCreative experiences through unique and stimulating teaching approaches that incorporate the best of national and international curricula. Our programme focuses on developing the mind, body and soul of every learner in order to create a life-long love for learning. Our learning experiences, while remaining rooted in Indian values, will enable them to become successful leaders and effective communicators who can adapt effortlessly to a culturally diverse and ever-changing world.

Top Reasons for Choosing JBCN International School, Borivali

World Class Faculty
