

Outstanding Cambridge Learner Awards India

Welcome

Cambridge learners are at the heart of everything we do. Every element of a Cambridge education – the curriculum, teaching and learning, resources and assessment – is carefully designed to help learners reach their potential and thrive in life.

We are delighted to congratulate learners from India on their academic achievements in the November 2024 and March and June 2025 Cambridge examination series.

The Outstanding Cambridge Learner Awards recognise the exceptional performance of learners around the world in Cambridge examinations. The awards reflect the talent and hard work of learners, and acknowledge the dedication and commitment of their teachers and parents.

As part of the University of Cambridge, we have over 160 years' experience in delivering fair and reliable assessments that are trusted by universities and employers worldwide. With the qualifications they have gained, Cambridge learners are well prepared to take on the exciting opportunities that lie ahead and achieve their dreams.

We are delighted to see that the popularity of Cambridge examinations in India continues to grow, and this year we have a total of **227** students achieving an award. The award winners represent **106** schools in India and cover a range of **119** subject areas at Cambridge IGCSE™ and Cambridge International AS & A Level. All these awards demonstrate the high standard of education in our schools.

We are proud of every Cambridge learner represented in these awards for their commitment and hard work. We are always interested to hear from learners about their experiences with Cambridge and what they go on to do next. Please keep in touch and tell us your story (www.cambridgeinternational.org/alumni).

We look forward to congratulating more learners from India for their achievements in the future.

Vinay Sharma

Regional Director – International Education, South Asia

Important information

Photographs may be taken at this event for use in our publicity materials. If you do not wish your photo to be used, please tell the photographer or Cambridge staff on site.

Ready for the world with Cambridge

Cambridge works with schools worldwide to build an education that shapes knowledge, understanding and skills. Together, we give learners the confidence they need to thrive and make a positive impact in a changing world.

As part of the University of Cambridge, we offer a globally trusted and flexible framework for education from age 3 to 19, informed by research, experience, and listening to educators worldwide.

Our Cambridge Pathway offers five stages of education from age 3 to 19, leading seamlessly from early years to pre-university. Schools can select which stages they provide and choose from a broad range of subjects. This means they can design a curriculum that meets their needs and excites their students.

Every stage – Cambridge Early Years, Primary, Lower Secondary, Upper Secondary and Advanced – helps prepare learners to thrive in and outside the classroom, and at university and beyond.

Opening doors to a world of opportunities

Cambridge qualifications are recognised by the world's best higher education institutions. They value the critical thinking skills, independent research abilities and deep subject knowledge that Cambridge learners bring to university.

We continually work with universities and colleges in every part of the world to make sure that they

understand and accept our qualifications. More than 2200 universities in over 90 countries recognise Cambridge qualifications, including all UK universities, nearly 1000 US universities and leading universities in Australia, Canada, Germany and beyond.

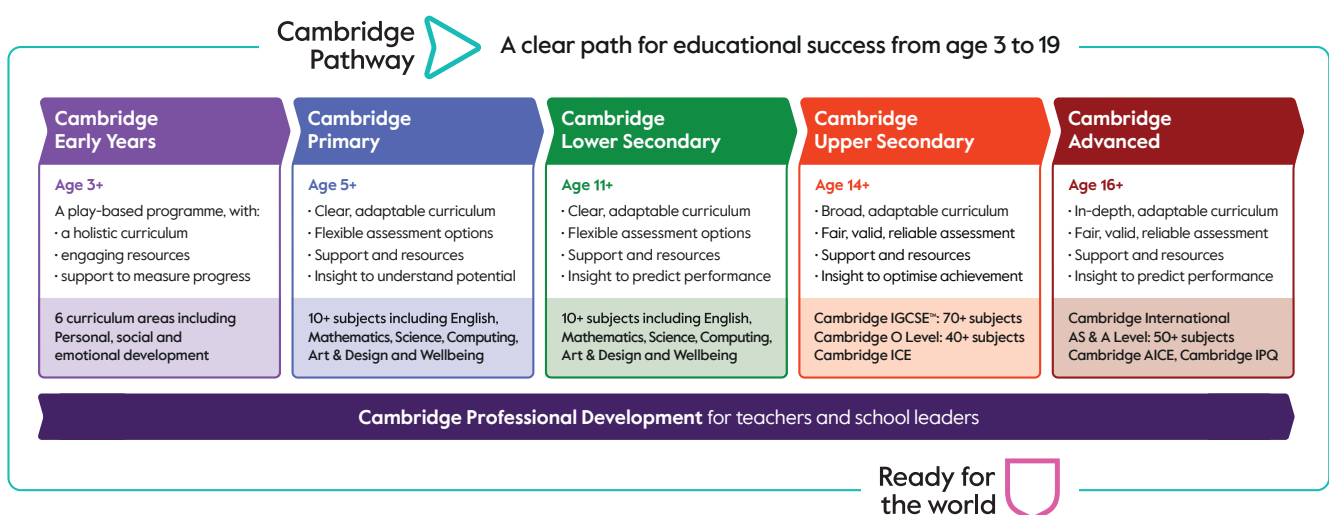

From the world's top-ranked universities to local higher education institutions, Cambridge qualifications open doors to a world of opportunities.

Learning with lasting impact

At Cambridge, we recognise that meaningful education is more than just building subject knowledge and conceptual understanding. To thrive in life, learners must also develop a broad range of skills, values, attitudes and behaviours.

Cambridge programmes, assessments and resources help schools develop reflective and innovative learners with the confidence to embrace new information, ideas and challenges. Responsible and respectful of others, they are engaged intellectually and socially – ready to make a positive impact.

With these attributes, Cambridge learners are ready for the world.

Outstanding Cambridge learners in India

We are pleased to acknowledge the success of all students who passed Cambridge examinations during the November 2024 and the March and June 2025 examination series. It gives us great pleasure to recognise the exceptional performance of those learners who have been awarded the highest marks in a subject.

Our awards recognise outstanding performance in India, apart from our Top in the World Award which acknowledges exceptional performance globally.

We congratulate learners who have been recognised for 'High Achievement' based on outstanding performance in subjects which are not so widely taken in India.

We use strict criteria to calculate Cambridge awards. These criteria ensure that the achievements we recognise are consistent across the world in all subjects and at all qualification levels.

Learners receive awards if they have attained the highest marks in a subject, providing that they have achieved the minimum grade and standard mark for that award category.

Cambridge learners in India have gained awards in the following categories:

- Top in India for Cambridge IGCSE
- Top in India for Cambridge International AS Level
- Top in India for Cambridge International A Level
- Best Across Eight Cambridge IGCSEs
- Best Across Three Cambridge International AS Levels
- Best Across Three Cambridge International A Levels
- High Achievement in Cambridge IGCSE
- High Achievement in Cambridge International AS Level
- High Achievement in Cambridge International A Level
- Top in the World for Cambridge IGCSE
- Top in the World for Cambridge International AS Level
- Top in the World for Cambridge International A Level

Top in India

'Top in India' is awarded to learners who have achieved the highest standard mark in their country for a single subject.
